Chem 101 Strategies

1. Before Class
   - Get the Big Picture
   - Scan the learning objectives
   - Scan the Unit Plan Outline

2. During Class
   - Don't write everything down (you will get his notes)
   - Listen!
   - Create a roadmap using keywords and timestamps.

3. After Class
   - Rework the material within 24 hours
   - Do Practice Problems (chapter and Achieve)
   - Do color coded problem solving
   - Weekends: Big picture studying
   - Do practice exams & identify connections
